Jameson's love for the outdoors and its raw elements is what drives his passion for landscape architecture. He strives to create space that engages users and gives them a shared sense of appreciation. His strengths include conceptual site planning, hand graphics, 3D renderings, and construction details.

In his spare time, he and his wife Randi enjoy hunting, fishing, and other outdoor activities. Randi is currently employed by Texas Health Resources. They currently reside in Argyle, Texas.

Education

Oklahoma State University 2010
Stillwater, Oklahoma
Bachelor of Science
in Landscape Architecture
